Abstract

With PrediPie, You Always Win

PrediPie introduces a next-generation football prediction platform that blends game mechanics, real cash incentives, and intelligent risk management. With over 1.6 million user-generated predictions, PrediPie has developed a proprietary **AI** model capable of delivering highly accurate match forecasts. To reinforce trust in this system, PrediPie introduces **ReFAi** (Recovery Finance AI)—a unique mechanism where users can allocate funds alongside the AI's match predictions, unlocking a built-in safety net that cushions potential losses through the platform's token economy.

Users can leverage PrediPie's advanced AI for match predictions, allocating funds within the platform up to a daily limit. If the AI's prediction is accurate, users receive 60% of the generated profit within less than 48 hours, while 40% is allocated to the ReFAi pool to help maintain long-term sustainability. In the event of an incorrect prediction, ReFAi compensates the user with the dollar equivalent of their initial funds, distributed on a weekly basis.

Beyond the AI-powered prediction system, users can engage in various gameplay modes such as tournaments, journeys, and several additional formats currently under development. Additionally, through a monthly **buyback** mechanism, 10% of PrediPie's platform revenue is used to repurchase Predi tokens from the open market and inject them into the ReFAi pool—further enhancing ecosystem stability and creating continuous demand for the token.

This model ensures users are always in a winning position, while driving long-term utility, token deflation, and economic resilience through smart, circular tokenomics.

1. Introduction

1.1 Overview of PrediPie

PrediPie is an innovative football prediction game designed to offer users a safe, fair, and low-risk environment to test their football knowledge and strategic thinking. Unlike traditional betting platforms, PrediPie provides a skill-based experience where success is determined by the accuracy of predictions rather than luck.

Players can participate in multiple game modes, each tailored to different levels of engagement and competition. Whether they are casual participants or seasoned football analysts, everyone has an equal opportunity to showcase their expertise. With minimal financial risk, users can compete for valuable cash prizes, ranging from \$100 to \$10,000 in high-skilled challenges.

By focusing on transparency, fair play, and rewarding skill over chance, PrediPie creates a dynamic and engaging platform where football fans can turn their insights into real-world rewards.

2. Industry Challenges

2.1 High Financial Risk & Lack of Control

One of the biggest issues with traditional platforms is the high-risk nature of betting. Players often wager large amounts of money, and a single bad decision—especially in an impulsive or emotional state—can lead to devastating losses. A person who is drunk, high, or overly confident could place reckless bets and lose their entire savings in a single night. These platforms thrive on addiction and financial risk, creating an environment where the house always wins, and users face unfair odds.

2.2 The Next Generation Demands More Than Just Betting

Younger audiences no longer find traditional betting appealing. They want a gamified, interactive experience where they can compete, strategize, and engage rather than just risk their money on uncertain outcomes. Instead of a system where the only thrill comes from wagering, modern users seek a fair, competitive, and skill-driven environment that rewards smart predictions over sheer luck.

3. PrediPie Solution

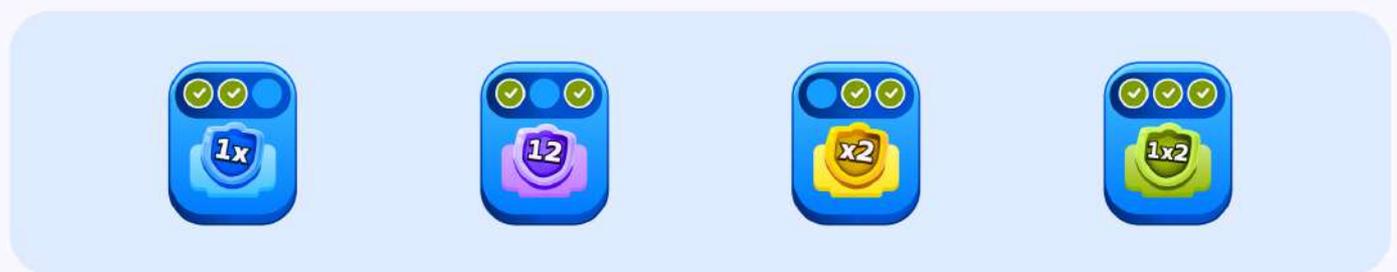

PrediPie completely removes the gambling aspect and replaces it with a skill-based, low-risk **Play to Win** model. Players can enjoy the thrill of competition, test their football knowledge, and earn real rewards without the fear of losing everything. By integrating gamification, strategy, and fair play, PrediPie provides a next-generation football prediction experience that is safe, exciting, and aligned with modern user expectations.

In PrediPie, users are tasked with predicting the outcome of real football matches. Players simply predict whether the result will be a **Home Win**, a **Draw**, or an **Away Win**. Outcomes are determined based on the standard 90 minutes of play (Regular time), with no consideration given to extra time or penalty shootouts. This ensures that the focus remains on predicting the regular match results, making the game fair and straightforward.

Additionally, **Tool Cards** provide players with strategic power-ups by covering multiple possible outcomes within a match. These cards can be purchased in the shop and used during gameplay, allowing players to further refine their predictions:

- 1X → Covers Home Win or Draw
- X2 → Covers Away Win or Draw
- 12 → Covers Home Win or Away Win (No Draw)
- 1X2 (Green Guard) → Covers all the possibilities

Data Cards provide users with valuable insights to **analyze matches** more effectively before making their predictions. These cards offer **key statistical data**, such as:

- ODD & H2H (Head-to-Head comparisons)
- Team Stats & Performance Trends
- Last 5 Matches Analysis

By leveraging Data Cards, users can make **informed decisions** based on real football analytics rather than relying on intuition alone.

In the **Tournament** mode, where fair play is emphasized, all users start with an equal number of cards, ensuring a level playing field. This adds a layer of strategy, as players must choose the optimal cards for their predictions while relying on their football knowledge to outperform others.

4. Token Economy

PrediPie introduces its native token as the foundation of its ecosystem, enabling a seamless and rewarding experience for users. The token serves multiple purposes, ensuring engagement, utility, and long-term sustainability.

PrediPie Token

	Total Supply	500M
	Listing Price	\$0.01
	TGE	May 22
	Symbol	Predi
	Airdrop Campaign	Live

4.1 REFAI: Recovery Finance – A Loss Shield Mechanism

To reinforce user trust and promote ecosystem longevity, PrediPie introduces **ReFAi** (Recovery Finance AI model)—a pioneering loss-coverage mechanism that leverages staking to safeguard users while maintaining the integrity of the platform’s tokenomics.

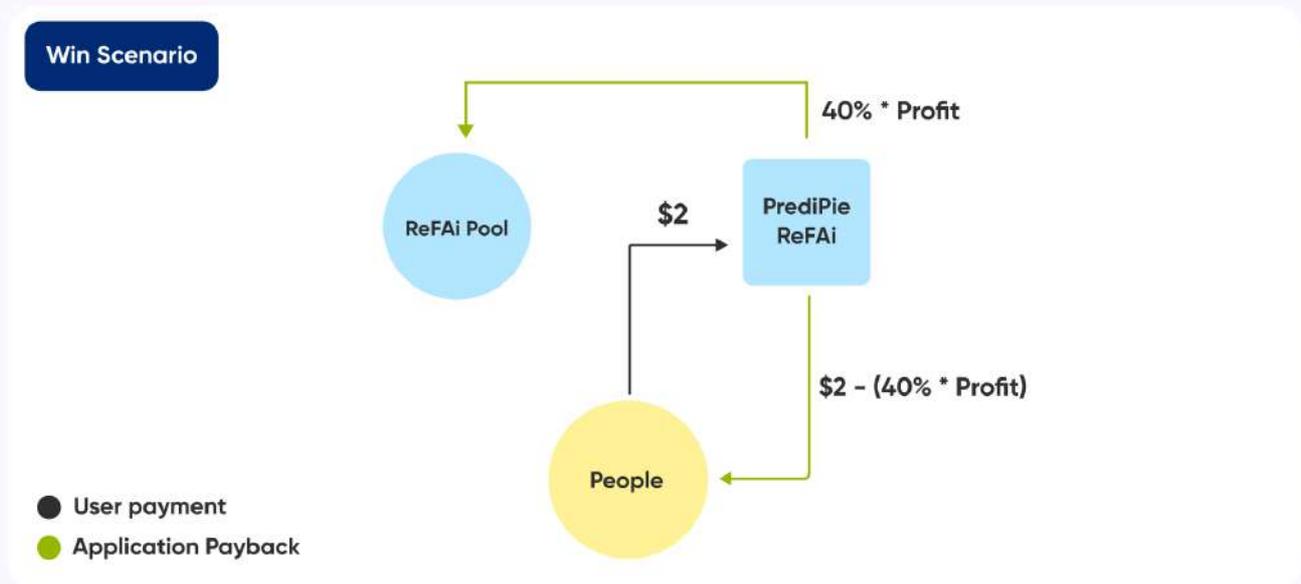

How ReFAi Works

Users can leverage PrediPie's advanced AI for match predictions. By allocating funds within the platform up to a daily limit, users can engage with these predictions. If the AI's prediction is accurate, users receive 60% of the generated profit within less than 48 hours, while 40% is allocated to the ReFAi pool, ensuring platform sustainability. In the event of an incorrect prediction, users are safeguarded and will receive their initial allocated funds back, distributed on a weekly basis.

There are two key outcomes:

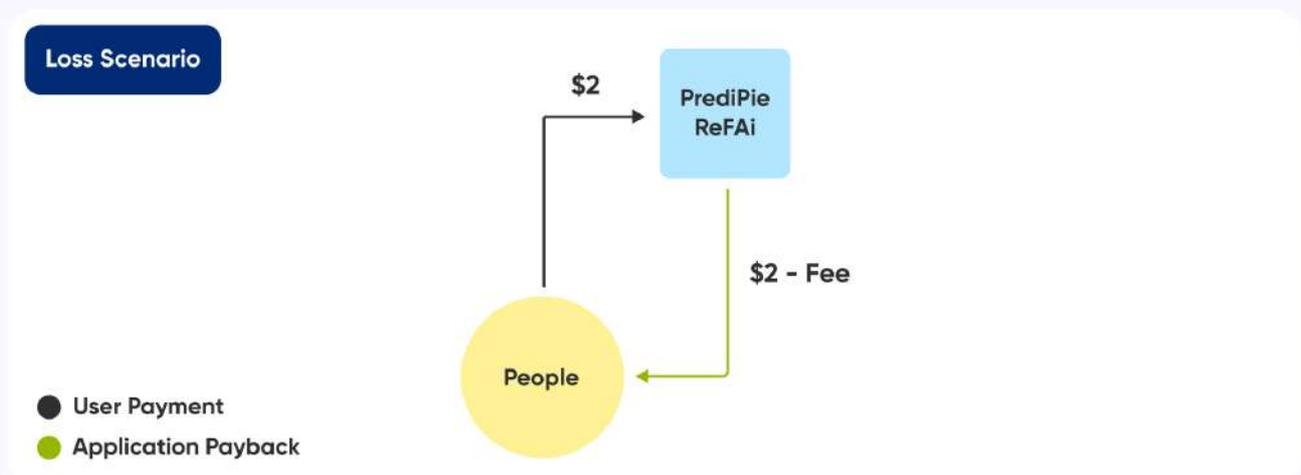

1. Correct AI Prediction (Win Scenario)

- The user receives their entire allocated fund amount plus 60% of profit back within less than 48 hours.
- 40% of their profit are automatically contributed to the ReFAi Pool, fueling its long-term sustainability and community safety net.

2. Incorrect AI Prediction (Loss Scenario)

- The ReFAi Pool compensates the user with the USD-equivalent of their original fund.
- This compensation is vested over a few weeks, ensuring sustained engagement and reducing potential abuse.

Ecosystem Sustainability & Token Utility

ReFAi is not only user-centric but also vital for token deflation and economic resilience:

- Monthly Buyback: 10% of PrediPie’s revenue is used to buy back \$PREDI tokens from the open market, which are injected directly into the ReFAi Pool.
- This ensures:
 - Constant liquidity within ReFAi.
 - Increasing token demand.
 - Reduced circulating supply over time.

Benefits at a Glance

- Trust & Safety: Users are covered against AI mispredictions, encouraging wider adoption.
- Deflationary Pressure: Buybacks and staking reduce the token supply.
- Circular Tokenomics: Winnings and revenues cycle back into ReFAi to sustain its fund.
- Engagement & Retention: Gradual payouts incentivize continued participation.

4.2 Account Funding – Exclusive Benefits for PrediPie Token Holders

PrediPie introduces a reward-based funding system, giving users the flexibility to charge their accounts with different tokens while providing exclusive advantages for those who use the native PrediPie Token.

	Toncoin \$3	0.40 \$1.2	5% bonus	▶
	PREDI \$0.01	500 \$5	7% bonus	▶

Bonus Structure for Account Funding

Users who fund their accounts with PrediPie Token receive a 7% bonus, while those using other cryptocurrencies receive a 5% bonus. This system incentivizes players to use PrediPie token for greater benefits, strengthening the ecosystem while maximizing their in-game advantages.

Why This Matters?

- Users funding their accounts with PrediPie Token get a higher value for their deposits, allowing them to participate in more tournaments, predictions, and staking opportunities.
- Encouraging native token usage ensures a stronger token economy, creating long-term sustainability for the platform.
- This bonus system enhances user engagement, ensuring that participants get the most out of their funds while contributing to a fair and rewarding ecosystem.

By prioritizing Predi usage, PrediPie strengthens its token's utility, demand, and long-term value, making it a key asset for both players and investors.

4.3 Airdrop – Rewarding Engagement & Skill

PrediPie has introduced a merit-based Airdrop Program to reward active and engaged players. Users can find the Airdrop Section within the app, where they can track their progress and claim rewards based on their performance and game participation.

The program consists of four key categories: SBT Holders, Social Media, PrediPie Missions, and the Affiliate Program. Users can explore specific tasks in each category and view the corresponding rewards in the table below.

Table 1

Airdrop Program Categories and Tasks

Category	Task Description	Reward (Predi)
SBT Holders	Ton Society SBT Holders	5
	Nomis SBT Holders	Based on their score from 1 to 100
	ReFAi SBT Holders	500
Social Media	Follow PrediPie X Account	6
	Join Telegram Community	15
	Join Telegram Announcement	15
	Subscribe PrediPie YouTube channel	8
PrediPie Missions	Join 2 Times in Tournament	400
	Win One Time in Second Place	1,000
	Win One Time in First Place	2,000
	Play 10 Times in Tournament	3,000
	Reach Step 23 in Journey	110
	Reach Step 24 in Journey	1,000
	Reach Step 25 in Journey	100,000
Affiliate Program	Invite 50 Free Users	100
	Invite 10 Paid Users	500
	Earn 100\$ Revenue from Affiliate	54,500

This system ensures that **dedicated players and affiliates** benefit the most, making participation in PrediPie **both exciting and rewarding**.

4.4 Token Supply, Distribution & Vesting Schedule

The total supply of PrediPie Tokens is set at 500,000,000 (500 million tokens). This supply is strategically allocated to ensure long-term sustainability, fair distribution, and consistent ecosystem growth. A structured vesting schedule has been implemented to maintain market stability and ensure long-term alignment between the team, advisors, partners, and early supporters.

Table 2

Token Distribution and Allocations

Allocation	Allocation Percentage	Total of Tokens	Token Price (\$)	TGE Unlock (%)	Cliff (months)	Vesting (months-LV)
Team	15.00%	75,000,000	-	0%	24	24
Advisors	3.00%	15,000,000	-	0%	18	24
Partnerships /Collab	10.00%	50,000,000	-	10%	12	12
Airdrop	3.00%	15,000,000	-	0%	1	0
Private Sale	30.00%	150,000,000	\$0.006	20%	6	12
KOL Round	2.00%	10,000,000	\$0.008	20%	6	6
Launchpad	5.00%	25,000,000	\$0.010	100%	0	0
ReFAi	20.00%	100,000,000	-	0%	0	Locked in Contract

Allocation	Allocation Percentage	Total of Tokens	Token Price (\$)	TGE Unlock (%)	Cliff (months)	Vesting (months-LV)
Line Activation	7.00%	35,000,000	-	0%	12	24
Liquidity	5.00%	25,000,000	-	100%	-	0
Total	100.00%	500,000,000	-	17%	-	-

With this model, **PrediPie** is set up to deliver a safe, engaging, and growth-focused platform for global football fans.

5. Conclusion & Call to Action

5.1 Why PrediPie?

PrediPie is not just another football prediction platform—it is built with a scientific purpose. Our team comes from a **Neuroscience background**, and we deeply understand the psychological and behavioral aspects of risk-taking and addiction. With this knowledge, we have developed PrediPie as a **harm reduction** product for football fans who love making predictions but want to avoid the **high-risk nature of traditional betting platforms**.

A Smarter, Safer Alternative to High-Risk Betting

In the same way that IQOS provides a lower-risk alternative to smoking, PrediPie offers a safer and more responsible alternative to football betting. Traditional betting platforms are designed to encourage financial risk-taking, often leading users into dangerous cycles of loss and addiction. In contrast, PrediPie provides a low-risk, skill-based experience where users can enjoy the excitement of predicting football matches without the fear of losing everything overnight.

Our Mission: A Fair & Engaging Football Prediction Experience

PrediPie is built to give users:

- A structured and low-risk environment to enjoy football predictions.
- An equal-opportunity system, where success depends on skill rather than financial power.
- A harm reduction approach, allowing users to experience the thrill of football predictions without falling into gambling addiction.

By integrating gamification, blockchain technology, and skill-based mechanics, PrediPie ensures that football fans can engage in strategic, competitive, and rewarding gameplay—without the financial dangers of traditional betting platforms.

PrediPie isn't just a game; it's a responsible and fair way to enjoy football predictions while ensuring that players have full control over their financial well-being.

5.2 Roadmap

PrediPie is committed to continuous growth and innovation, ensuring a sustainable and engaging ecosystem for its users. Our roadmap outlines key milestones that will shape the future of the platform.

Q2 2025 – Airdrop Campaign & IDO

- Launching a large-scale airdrop to reward early adopters and active users
- ReFAi mechanism on Ton Blockchain
- Listing PrediPie Token on decentralized exchanges
- Enabling public trading and liquidity for token holders

Q3 2025 – Native version Launch

- Launch of the mobile native version of the PrediPie app
- Launch of the web version of the PrediPie app

Q4 2025 – Expanding to other sports

- Expanding PrediPie's gaming ecosystem with new prediction-based games
- Adding Cricket, Basketball and e-sports games

This roadmap reflects PrediPie's long-term vision, ensuring that the platform continues to evolve, **offering new opportunities, fair gameplay, and sustainable tokenomics** for all participants.
